

Institute of Evolutionary Medicine (IEM)

Seminars in Evolutionary Medicine FS2018

Wednesday, 16:15 - ca. 17:00, UZH Irchel Campus, Room Y42 G53

- 14.02.2018 Prof. Dr. **Robert Martin** (Institute of Evolutionary Medicine, University of Zurich, and The Field Museum, Chicago, USA): *"The Field Museum's Mummy Project."*
- 28.02.2018 Prof. Dr. **Andreas Wagner** (Department of Evolutionary Biology and Environmental Studies, University of Zurich): *"Simple experimental systems that shed light on the evolution of complex organisms."*
- 14.03.2018 Prof. Dr. **Olivier Devuyst** (Institute of Physiology, University of Zurich): *"Genetics of kidney disease: An evolutionary perspective."*
- 28.03.2018 Prof. Dr. **Jon D. Laman** (Department of Neuroscience, University Medical Center Groningen): *"Multiple sclerosis and animal models: pathogen experience on evolutionary and individual time scales."*
- 11.04.2018 Prof. Dr. **Dieter Ebert** (Institute of Zoology, University of Basel): *"Does host-parasite coevolution generate genetic diversity?"*
- 25.04.2018 Prof. Dr. **Barbara König** (Department of Evolutionary Biology and Environmental Studies, University of Zurich): *"Social interactions matter - an evolutionary analysis of the social behavior of house mice."*
- 09.05.2018 Prof. Dr. **Marcelo Sánchez-Villagra** (Department of Paleontology, University of Zurich): *"On dogs, cats, chicken, and - humans? Morphological diversity and its developmental bases in domesticated animals."*
- 23.05.2018 Symposium *"Towards the origins of leprosy: molecular approaches to understand one of mankind's oldest diseases."* Keynote by Prof. Dr. **Anne Stone** (Arizona State University, Tempe, USA): *"The leper's tale: relationships among strains in humans and other animals."*

All talks are public events and participation is free. Registration is not required.
